The most different HB Angus bull in years, here is a very unique and powerful son of the now-limited Plainview Lutton E102 "Lut" from one of our best females! This is one impressive yearling that offers a very rare and important combination of body depth with style and performance with class. His dam is absolutely the deepest bodied Angus cow in the herd and her son looks a lot like her only with more muscle shape and up-graded extension and style. He offers an optimal balance of performance traits with an added element of pizzazz. The Cowman's Kind for sure!
