Thanks to you, our valued customers, and the success of our last auction, we've been running faster and working harder than ever to bring you the level of quality and service you expect from the P1 team. It took some doing, but we're ready again this year; and we're raising the bar of quality and success for both our programs and yours. Please accept this invitation to join us this January 28th in Dunlap as we present our largest and most powerful sale offering ever!

From the bulls to the breds, we've dug deeper than ever – there were some really tough decisions made at sorting time and we're still not sure why we're selling some of these so soon – to make the Priority One your first thought when it comes to replacement stock. You can feel confident that a lot of effort and thought was put into these cattle and they are well prepared to succeed in their new homes. We've got more powerful options than ever in this offering, and we're excited to see what you think of them.

We would like to take this opportunity to thank each of you for this opportunity to serve you as seed stock suppliers and for your support over the years. Ryan and I, and our families, have spent our lives building our cow herds and we take our jobs very seriously. We thank God for every day we get to work on the ranch and be with the cattle. It is truly a labor of love, and we're doing all we can to pass this lifestyle on to our children. Without you none of this would be possible and you can be assured that we'll continue to do all we can to earn your business and trust. Call on us whenever we can assist you.

This business has always been crazy, but it is getting especially wild lately. Low supply and high demand have made us cattlemen prized commodities. High-Priority Donors and Bred Cows

Problem-Free and Powerful...The Kind that Brings You Back!

16

Went/Pryor Donor 603 Yellow

Reg. PB Charolais Female Calved: 2006

Sire: **RIO BRAVO**

Dam: **ELIMINATOR**

Bred to Fighting Irish (Irish Whiskey son) - Due late March/early April

A proven Went & Pryor donor and one of the most intriguing and powerful Charolais cows we've come across, this is a valuable tool that anyone can use. We nicknamed her "The Yetti" because she is a real beast in terms of width, dimension, and unreal leg and body hair on a purebred female. We've not worked her that long but she has given us plenty - her first calf was a \$2,500 I-Back son that sold as a bull, her second was a \$6,000 daughter by Crimson Tide that was Champion AOB Heifer of the 2009 Iowa State FFA Fair for the Gradert family and later produced the impressive Lot 3 bull in this sale, and Yetti's first set of ET calves were supposed to be heifers by Tank but they sold as show steers for \$4,500 each - and she has performed well enough at transplant to enable us to offer her here. We have a selection of daughters in development now and we featured this cow a year ago as Lot 3 where her first embryos sold for over a \$1,000 average. She is the real deal - from her big, well-placed feet to her enormous body - and she is better in frame score with way better hair than nearly any you'll find. We've got to move her out to make room for more but we may be pulling the plug just a little too early on this one. The Yetti is coming to town!

She makes them like she looks and this match with Heat Wave is just what you need to get started quickly. You can accomplish a lot with cows like this one!

Pryor P83

Female Calved: 2006

Sire: **IRISH WHISKEY**
Dam: **SIMMENTAL**

Due to calve March 23 to Monopoly

What a whale! This is the definition of white-faced power and she'll prove it to you. You might recognize her from a year ago when she sold as Lot 35 to a dishonest bidder. She calved unassisted to Q-Dog while we were waiting for him to honor his contract which he never did. His loss; we sold the steer for \$3,000 in our pasture sale. She'll work even better with Monopoly and, when you see her, we'll bet you'll honor every bid you make. This one is a load!

Lot 25

25

Pryor 443

Female Calved: 2004

Sire: **AFTERSHOCK**
Dam: **ANGUS**

Due to calve March 15 to Hollywood

What an Aftershock! What a female! We said we'd never sell this one, and we kept saying we'd flush her but never got to. She is certainly worthy of some mass production after her no-miss effort on our place. She is the dam of a powerful trio of babies that sold for \$12,000, \$7,000, and \$8,500 (heifer), and we never flushed her because she always bred back right away. She did it again this year and she looks half her age with her sweet neck, perfect belly, and powerful shape that she passes on. She's a favorite!

“These are the cows we use to make the females and bulls you like!”

Mega-watt donor power from the same dam as Kris Black's foundation sire, Tank! This baby has got the back and it starts right behind her forerib. She is trunk legged and robust in her rib shape with the strong jaw and forearm to go with it. She looks like a power player and we wouldn't bet against her. Lifeline daughters are not supposed to be this stout and massive but this one sure is, maybe that's how her brother got his name. Breed her to anything!

All white and all right, here is one of two Shorthorns that we think any show cattle man can use! Try all you want but you won't be able to quit looking at her in the sale pens.

Calved: Fall 2009

Sire: **SIN CITY SON**

Dam: **20/20 VISION**

Due to calve March 3 to Mercedes Benz - Exposed to Total Access and S.O.S. sons thru 8/15

You won't find many Shorthorns in the Went Blacks pastures but when you do, you need to load them because they've been through the sort and the resort and still stood the test. This one is our kind; more moderate, bigger boned, and wider with the all the elements you need like good looks, big hair, and plenty of bone.
