We think this is one of the best Angus bulls we’ve ever produced! He is the best product so far from our 2009 National Western Stock Show Reserve Grand Champion Female, HCA Estella 782, and this bull has the look of a difference-making sire. His sire created quite a buzz with his debut and he has been very consistent for us as well. This bull is the total package from nose to tail and he gets better every day. Look him up in Denver or come to the auction but be sure to add this guy to your lineup and see what a great bull like this will do!

A great I-80 son to make life easier! This low birth weight bull is filled with quality to be used in so many ways. He came easily but there is nothing dainty about him as he is loaded with muscle and substance you can use. His frame score and movement are ideal and his THF/PHAF pedigree will be so handy to have. This is our strongest set of bulls in thirteen years and they’ll be well worth your trip and investment – especially this guy!

Genetic Testing Info:
Any bull that is a possible carrier of a known genetic defect will be tested prior to the auction. Results will be listed on the sale update sheet available at the clerk’s desk.

EPD and Performance Testing Information:
Up-to-date EPD information and birth and adjusted weaning weights as well as current scrotal measurements will be available either in this catalog or on the sale update sheet for each of the bulls selling.

Breeding Guarantee:
Each of the bulls selling is guaranteed to be fertile and capable of settling healthy females in your operation as per the guidelines suggested by their respective breed associations. Unless announced otherwise, all females have been checked pregnant just prior to the sale and will sell without further guarantee. If you have specific questions regarding the pregnancy status of any female in this sale, please ask any of the HB crew or the sale manager.

A whole lotta sire power here! This massive I-80 son is the first calf from a heifer we intended to sell in our 2012 Eastern Xposure until she calved before she could be delivered. We’re glad she stayed because this first calf is a good one and she looks like an outstanding youngster. This bull arrived with a 74 lb BW and weaned at 751 lbs and he continues to add valuable muscle and capacity to a chunky, hairy frame.

A great-looking son of one of the best cows on the place! This super-thick and clean-made Walks Alone bull is backed by an 11 year old dam that has been as strong as any female we have. This bull is choke necked and very wide based with the square, moderate, classy look you need to get extra value from your calves.
Genetically loaded with the looks and performance to match, this is a natural son of the top-ranking Chiangus female in our herd and he will make a very wise investment regardless of cost. His dam is exceptional and his sire is the ACA National Champion that sold through our 2010 Eastern Xposure Sale. He combines a great total look and design with impressive width and dimension plus a perfect disposition and extra mass. From the top of our herd, this is a real breeding bull to push any program higher!

A great Chiangus sire in the making! Sired by the three-time National Champion and well-proven sire of quality, Eagle Scout, this bull is loaded with quality and backed by one of the biggest-bodied cows in our herd. He too is unusually deep ribbed but still great looking with a perfect hip and structure. He looks like a show bull and his pedigree will be so easy to blend with many of today’s pedigrees plus he tops the charts for testicle development and pizzazz. He has enough Chi blood to make his calves eligible for registry with nearly any combination and his daughters will be maternal gold!

This combination has worked so well for us and it did again here! This big, strong Chiangus is loaded with performance and good looks and he should breed in kind. “Lut” genetics are in high demand and this bull is complete and attractive and has grown very well.
Backed by the consistent strength of our Black Jstress line that has produced so well over the years, this high-performance half-blood SimAngus is easy to admire. He is very heavy and high-performing with excellent structure and mobility. His all-clean pedigree and superb performance will make him a valuable all-around sire.
An excellent, blaze-faced SimAngus from the full brother to WAGR Dream Catcher and WAGR Driver, this bull records one of the most impressive birth-to-weaning spreads in the crop. He is another top product of our Black Jestress family that always delivers the goods and he will impress you with his size, depth, and clean profile. His front end design and total mass are outstanding!

This combination is three for three when it comes to producing quality so we think this impressive yearling will be one to rely on for consistent goodness. He is very easy doing and correct with strong body mass and muscle. His half-blood Simmental pedigree and consistent lineage that stems from the same family that produced Lot 1 will add extra value to your crops.
HB Newsmaker 15

From our famous Barbara line that has worked so well for so many, this Moneymaker purebred is one of the very best of his crop and he will make a great difference in any herd! He comes fully equipped with a balanced EPD profile plus a super-attractive design and leading muscle. His depth and flawless pattern will serve you well plus he is covered in valuable hair to make his calves even easier to sell. All our best from 2012 sell here!

HB 12

Look at the extreme neck and stoutness on this maternal brother to BSAR Opportunity 9114! This is quite an exciting and versatile Angus bull with superior calving ease and substance. His snake neck and surprising depth give him a unique combination to start with plus he is heavy and shapely from one of the best cows in the Jones-Stewart lineup!

Loaded with cow power and evident quality, this is another special donor option from our fall heifers. She stems from our productive Eileen family that has given us a number of sale features over the years and she has the look we love. You can go a lot of directions with a low percentage female like this whose tremendous depth and correct design will always make her a favorite. Calve her, flush her, and get her bred again in your rotation.
An ideal female to start something special with, this half-blood Simmental by Avenger is quite a female! We love her structure and body shape and the options she brings to the table at mating time. Her movement is perfect and she is built with more width than nearly all you will find that are still this feminine and correct.

A half-sister to the big winner we sold to the Jass family, IA, a year ago, this half-blood Simmental heifer will make a massive and flexible cow. She is extra wide and deep and equipped with a perfect udder.

ALC MISTY M03R

AI 5/14 to MSF Journey – No Exposure – Due approx. 2/21

This is the best group of bred Angus heifers that we've offered yet and this Lut daughter is surely a favorite! We love her blend of fullness and femininity plus upgraded hair and udder quality. She's bigger and stouter and she'll only get more valuable as she matures.

AI 4/29 to MSF Journey – No Exposure – Due approx. 2/06

More of the look and blood that works, this Lut daughter is younger but very good. Her sire has proven himself to replicate his style down through the generations as his daughters have become valued performers.

A sweet Moneymaker daughter with great lines and design! She has the right type of muscle blended with winning balance and spot-on movement. This is the kind to breed too many ways to create premiums each time!

The maternal sister to the Lot 15 bull selling here, this bigger boned heifer is every bit the strong female that she needs to be to make a top performer. Her productive dam is a leader and this heifer is smooth, complete, and pretty plus her low birth weight blood will help every time.

Sire: SP THE ANSWER
Dam: AN x MA x SM
AI 5/30 to MSF Journey – No Exposure – Due approx. 3/09

A very unique daughter of The Answer! This one is super stout and soft at the same time and she might be the widest-based heifer in the crop. She'll bring the power to any combination you want to try.
